

“Taking Control of Your Power – Reduce/Generate/Store”

You are invited to a free workshop designed for businesses to explore how to reduce energy consumption, how to generate renewable energy from solar panels, and options for storing energy overnight.

- What is technically feasible?
- What makes financial sense for my business?
- What innovative business models are being used for landlord/tenant arrangements?

Workshop Program

Uralla Community Centre, 9 Hill Street, Uralla (next to old Court House).
