### Recycled Art Definition:

Art that seeks to transform waste such as paper, cardboard, wood, glass, plastics, metals and rubber into works of art. The concept, therefore, goes beyond the conventional recycling of materials by creating objects that exceed the economic, cultural and social value of the original product.

Recycled art provides a new purpose for objects that have satisfied their original use. Using these objects in artwork conserves resources and reduces the amount going to landfill.

**Website Gallery inclusion:** email a jpg image of the artwork labelled with artist name and title and include the dimensions (HxW in cms)

eg: TSmith-Roses-7x3.jpg

**Insurance and transport:** Both are the responsibility of the artist. The New England Art Society will not accept liability for loss or damage to works though all care will be taken. .
